

CCS 1000 D Flush range

The digital CCS 1000 D Discussion System is a standalone system with easy discussion control via a built-in web browser and is specifically designed for town halls, local business centers, boardrooms, city councils, student councils, courtrooms and classrooms.

The new CCS 1000 D Flush range combines numerous functions into a single panel and shares the same functionality and design options as the CCS 1000 D tabletop devices.

An enhanced user experience will make the flush discussion devices your next go-to solution whenever table space and budget are key.

The flush discussion devices deliver excellent speech intelligibility thanks to the systems' advanced digital audio processing and superior microphone and loudspeaker performance.

The panel design fully integrates microphone button and loudspeaker. The fixed gooseneck microphone is not affected by mobile phone interference. Additionally, the loudspeaker and microphone are activated simultaneously to create a more natural face-to-face meeting feel.

CCS 1000 D Flush range comes in four design variants

The flush range advantages and the CCS 1000 D system benefits complete each other perfectly

Flush range advantages

- Stylish and modern flush-mounted design fitting any interior
- Equipped with high quality loudspeaker for natural face-to-face experience
- Flexible fixed long or short microphone allows participants to adjust the microphone to the most comfortable angle and position
- The unique possible-to-speak indicator shows when the participants can turn on the microphone to speak
- Low susceptibility to mobile phones

System benefits

- Excellent speech intelligibility with built-in Digital Acoustic Feedback Suppression
- Build-in audio recording on internal memory and/or USB memory stick
- On-board support for automatic HD camera control
- Extended configuration and control via built-in web server
- “Energy saving mode” for automatic switch-off after two hours of inactivity

1000 D Digital Discussion System

Compact yet versatile.
